

Calvin Tsang's Violin Performance Services (package & fees subject to change per situation)

Starting Package is for UP to 35 minutes of standard/classical violin music (total maximum duration of all performed selections (not including wait/idle times), unless extra duration is booked) for a rate of \$295 (including HST, consultation, music preparation). This duration typically including 15 to 20 minutes of prelude music for wedding ceremonies. Please see below for any add-on fees.

Calvin would choose classical/standard music that he typically performs in weddings/events (see below for song request, if any). Also, this performance would be typically acoustic. If any amplification or other sound equipment set-up is requested by Client, this would have to be arranged by Client at Client's expense.

Approved song requests outside Calvin's standard/classical repertoire (per above process) would typically incur higher fees in order to be performed. This fee is due by a period before Event (usually within 2-3 days after approval) in order to be performed.

Overtime (if any):

A grace period of up to 15 minutes from scheduled end-time of Event is allowed for any remaining performance completion at no charge. Overtime for any remaining performance applies upon end of grace period, at a rate of up to \$30 per full 5-minute increment past grace period, unless performance is requested to cease.
